Directions for Use

Disinfection: Dilute 1:64 to disinfect hard non-porous surfaces. Treated surfaces must remain wet for 10 minutes. This product is a hospital disinfectant at this concentration. For heavy-duty use dilute 1:16.

Pure Disinfectant is approved by the EcoLogo Program. This program is designed to support a continuing effort to improve and maintain environmental quality by reducing energy and material consumption and by minimizing the impacts of pollution generated by the production, use and disposal of goods and services available to Canadians.

The Canadian Food Inspection Agency has no objection to the use of this product in food plants when used according to label directions.
